On Thursday, 10/23/2003, I first read a printout from Wilson's Auctioneers announcing the sale of 607 N. Middletown Road. It posted "1.6 Acres".

On the day of the auction, Saturday, 10/25/2003, Wilson's Auctioneers announced that the property was situated on 1.6 acres. He pointed to the boundaries being the street and to the left side, lined with Dogwood trees, to the right side, lined with the stone wall of an old greenhouse and the rear of the property being lined by trees across the back (vague description).

After we won the bid, Rob said "you just got a free home", when I asked what he meant, he said "all you need is to keep the existing home on .6 acres and build a new home on the remaining 1 acre". The lawyer, Mr. Piatrangelo was present and agreed.

Rob said he spoke with someone from the township and I was led to believe that we could keep the .6 and build on the remaining acre. Which was our intention when we bid on the home. To build and sell off 1 acre.

Township tax bill and County tax bill both state 1.6 acres.

We did not receive a copy of the appraisal until after settlement. It was mailed and received in late December.

Frank Brett contacted the township to discuss subdivision in early March. This is when we first heard "1.3 acres."

Title Insurance company mailed Deed, post marked 3/23/2004. This document shows 1.3 acres.
